6 Year Warranty

For a period of 6 years from the date the work described on the contract has been completed, JJD Painting will repair any newly applied paint which may peel or blister as a result of a defect in workmanship free of any labor charge. In the event that you sell your home this warranty is transferable to the new homeowner for the remainder of the exterior paint warranty at no additional charge.

If you feel like your house needs attention between the warranty period, we perform the following;

1. Check for peeling, blistering, or chipping of paint resulting from defective workmanship; if we find any we will repair it for free.
2. Inspect for rotten wood and give you an estimate for necessary repair. There is no obligation on your part to perform the work.
3. Make recommendations of items that will need attention and the costs such as deck staining, pressure washing, cleaning out gutters, etc.

- The cost of paint required to perform the repairs are not covered by this warranty.

JJD Painting

- Repairs will be performed only on the specific areas where peeling and/or blistering has occurred. Exact color match is not warranted as there is the likelihood that the original paint will have faded by the time repairs are performed.
- Peeling or blistering, which results from defect in the paint applied, is not covered by this warranty regardless of whether supplied by JJD Painting or by the customer. For details on warranties applicable to the paint, please consult the label on the paint manufacturer's paint can.
